*The Dance*

Have you ever wanted to dance with your horse? Prepare a musical Freestyle but don't know where to start? Margie Feduck, music instructor & dressage rider, has the answers!

Margie began riding in South Africa then moved to New Zealand to train with Harry Boldt, for many years the German Olympic coach. She also trained with Richard Weiss in the Alexander technique and has worked with Pat Parelli. Margie has created many musical rides and quadrilles with up to 60 horses.

Format of the clinic: Margie will discuss styles of music, how to match the beat of the music to your horse, how this will change as the horse moves up the levels, and how to incorporate a metronome into the music selection. She has a video library of musical rides and will have a selection of demonstration rides to view.
